 - as reliable sources of information (on theories, applications, activities)
- **To keep the Catalogs up-to-date**
 - accepting new and revised information regularly
 - revising all the Catalogs every two years
- **For promoting TRIZ and relevant methodologies further in the world**

[6] Concluding Remarks

[6A] What is the crucial issue for the success of the WTSP project?

The WTSP project has been facing with the same difficulty from the beginning.
"Many people support the aims of the WTSP project, but very few actually join and work together."

Because active TRIZ leaders are too busy to squeeze their time for WTSP.

In each country we need to have a Team and its Leader (WTSP Country Editor).

The Team leader should have the image of the goal (i.e., completed Catalogs), understand what to do and how to do in practice, be confident that the goal is reachable, and encourage and guide the Team members.

Team members and leaders should also be confident that their efforts are helpful for many people and fruitful for themselves as well.

The goals and processes of building the WTSP Catalogs have become much clearer and convincing, we believe.

Our Current Tasks: List up TRIZ related sites and describe introductions to them one by one in every country

Let's work Together! Connected!!
